

**Rocketmedical**  
Medical design and manufacture in the UK

# Customer Information Bulletin: WISAP<sup>®</sup> Products - discontinuation

**Background:**

Rocket Medical plc designs and manufactures its own label products here in the UK.

Until the mid 1990's the company also distributed selected products from other manufacturers, at which time took the strategic decision to progressively withdraw from these distribution arrangements to concentrate on our own designs.

However, as a service to our loyal customers in colposcopy clinics we continued to distribute the WISAP<sup>®</sup> Coagulator and Probes.

Following a review of our business groups, we have now taken the decision to finally complete our withdrawal from distribution and will discontinue sales of the WISAP<sup>®</sup> Coagulator and Probes with effect from **July 31st 2007**.

Naturally we will continue to honour our warranty commitments and will replace probes and instruments under the terms of the Warranty. Full details can be found at:

[http://www.rocketmedical.com/pdf/CIB/CIB\\_Coagulator\\_Probe.pdf](http://www.rocketmedical.com/pdf/CIB/CIB_Coagulator_Probe.pdf)

For sales of new probes and units or for service of products no longer covered under Warranty, please contact the manufacturers directly:
